Spain On Fence As U. S. Holds Up Ships in Port

RIFLES FOR TWO MILLION MEN REPORTED TO BE ON HAND

70,000 German Reservists Reported In the Country; Teuton Officers Ready

ANXIOUS TO BE WITH WINNERS IS BELIEF

Cause of American Action Is Based on Interference With Pershing Supplies

By ROBERT J. BENDER (United Press Staff Correspondent) WASHINGTON, Feb. 1.—Spain today is one of the most important and complex problems facing the United States and the allies.

Already she is feeling the teeth of America's grim war determination in answer to her interference with shipment of needed supplies to General Pershing's army in France. Eight of her big merchant ships are idle in New York, refused bunker coal licenses pending the outcome of negotiations, the nature of which cannot yet be revealed.

Meantime, however, the United Press is able to present an authoritative insight into Spanish conditions, based on information sent here, the reliability of which cannot be questioned.

The Spaniards, it is said, are watching the critical progress of the war with keen eyes. If she enters, she wants to be on the winning side. Her army is regarded as pro-German. As in every other country, the officers of the army are greatly impressed by the fetish of German military efficiency. Many of them have been trained in Germany and are thoroughly Germanophile.

Claim Rifles for Two Million It is claimed that Spain has modern rifles for two million men. It is asserted that there are 70,000 German reservists in the country and that when the Spanish army takes the field the burden of command will fall upon 20,000 trained German officers. "Already in this country, and their campaign is well planned and every man in his place."

In view of these conditions, this Government today is directly faced with the task, not only of holding Spain to our conceptions of neutrality, but of keeping her from joining with Germany.

That she has been of great service—either actively or passively—to Germany, has been known for some time. German submarines have been provisioning and getting wireless information along the Spanish coasts for many months. Submarine crews have been changed in Spanish harbors. American agents kept track of the men on one German boat in a Spanish harbor and there was a regular weekly change in personnel—brought about by "spelling" U-boat crews.

Report Wireless Stations All over the coast of Spain it is reported there are German wireless stations in constant touch with Germany and submarines.

But, despite her apparent leaning toward the German cause—now accentuated by her interference with supplies to the American fighting forces—Spain, it is believed, would side with the allies if she saw them a winner. If, however, Germany delivered the first crushing blow, American citizens in Spain say Alphonso XIII will be forced to go in on the side of the Teuton.

Hence, this Government is determined to obtain a definite understanding with Spain on several points, the nature of which cannot be disclosed now, and Spanish ships are temporarily held in American ports pending the adjustment.

Cutting off the Spanish manufacturer from his raw products shipped from this country would serve, it is reported, as a distinctly sobering influence on any pro-German enthusiasm among the Spaniards. Along this line a letter from an American citizen, who has studied the Spanish situation carefully, can be printed today, in part as follows:

With the Winners "The pelota (ball) is on the wall and all Spain is watching where it will fall—on which side. Teutonic or Teutonic allies, victory is likely to rest. The Spaniard has been too long on the losing side. He longs to side with victory and plume himself as a conquering warrior. So if the game goes strongly

Use Force to Curb Strikes Blame Turmoil on Agitators

JOHN JILL, SAMMY TAKEN CAPTIVE IN RAID BY GERMANS

U. S. Soldier Fought Bitter Struggle As Boches Closed In Upon Him

By J. W. PEGLER (United Press Staff Correspondent) WITH THE AMERICAN ARMY IN FRANCE, Jan. 31.—(delayed)—The lone American soldier that the Germans took prisoner in Wednesday's trench raid against the American lines was Private John Jill, according to his comrades. Jill, his rifle smashed by a shell fragment, was last seen savagely fighting with his bare fists against an enclosing circle of boches. Recently, a German suddenly leaped to the parapet of the enemy trench, shouted "Hello!" in perfectly good American and dropped back before the startled Sammys could fire. Desultory exchange of artillery fire continues.

SIX KILLED AS RUNAWAY TRAIN SMASHES COACH

More Deaths Are Expected Among Those Injured By Crash on G. Northern

BELLINGHAM, Wash., Feb. 1.—Two more deaths are expected today as a result of a runaway freight train crashing into the coach of a Great Northern passenger train at Sedro Woolley last night, killing six outright. Two of the sixteen injured are at the point of death.

Slippery rail conditions caused the freight engine to get beyond control, according to its engineer. Powerless to stop the crash, he set his brakes and jumped from his train, escaping injury.

The freight was a Northern Pacific train and the crash occurred at the crossing of the Great Northern and Northern Pacific tracks at Sedro Woolley. The coach was driven into the side of the depot, wrecking it also.

Robt. Nestor, Bellingham, and J. E. Powell, Sedro Woolley, are the two who may die momentarily. Others killed outright are: C. E. Patton, McMurray; Henry Thompson, Birdview; V. C. Schumacher, Portland, Ore.; Melvin Best, Kent; G. M. Tolford. One body has not as yet been identified.

WILSON SAYS HE'LL SIT TIGHT IN BOAT

COLUMBUS, O., Feb. 1.—Governor James M. Cox yesterday sent the following telegram to President Wilson: "Just sit tight in the boat. The reaction now crystallizing will overwhelm those whose politics has engulfed their patriotism."

President Wilson sent the following in reply:

"Thank you heartily for the message. You may be sure I shall sit tight for the boat is sound and nobody can upset it."

in favor of Germany in Italy or Flanders, watch out for Spain

"Spain's young and ambitious officers are eager to see action and the problem today is not how we can persuade Spain to side with the allies or what can we do to keep Spain neutral—but how on earth can we prevent Spain from joining with Germany at some critical time in the future when the Kaiser looks to be the odds-on winner."

SPAIN PROTESTS VESSEL'S SINKING

LONDON, Feb. 1.—Dispatches to the London Mail from Madrid today asserted that the Spanish government has sent a note to Berlin, protesting the torpedoing of the Spanish ship Giralda.

MAILED FIST TO HALT SPIRIT OF UNREST AMONG WORKING MEN

Alsace-Lorraine Stripped of Privileges; Ordered to Hard Labor

WASHINGTON, Feb. 1.—Germany's war chiefs are using strong means to quell the unrest in her great manufacturing centers and prevent its development in the army.

Following reports received here that the military authorities have been called upon to stop the strikers, official communications forwarded to this Government show that relentless precautionary measures are being taken with the troops.

Evidences of unrest in the desertion to the allies of some Alsatians in the Fifty-Fourth reserve infantry regiment of the Eighteenth reserve division within the last few days resulted in the division commander ordering all Alsace-Lorrainers to hard labor and stripped of all privileges.

The official order in this instance—and there is reason to believe there are many others like it—was issued by Colonel von Vibra commander of the Eighteenth reserve division and its text as received by this Government was as follows:

Official Order "25th January, 1918. "As in the past few days Alsatians have gone over to the enemy, all Alsace-Lorrainers of the regiment are declared to be unreliable. They will be withdrawn from the front tonight. Quartered apart and employed as labor units in the high ground. Their working hours will be from 7 o'clock in the morning until 4 o'clock in the afternoon. From 6 o'clock until 7 o'clock they will clean up under supervision. Smoking is strictly prohibited during the work and also are conversations with civilians or other comrades of the regiment. All privates from Alsace-Lorraine will be deprived of all their privileges as soldiers. Any mention of these measures made in letters or otherwise will be regarded as an offense against the law dealing with the preservation of service secrets and most severely punished."

(Signed) VON VIBRA, "Colonel and Commander."

Mailed Fist Used That Germany has resorted to the mailed fist in putting an end to disturbances is regarded by officials here with tremendous interest. The real test of strength of the labor uprising will soon be known, it is believed, if the gauntlet is thrown down between labor and the military.

While it has been known for some time that desertions from the Austro-German armies—particularly Austro-Hungarian troops—were increasing, the concern of the Teuton officers was not manifest until the secret order, quoted above, found its way through diplomatic channels to this Government.

Confinement at hard labor of the Alsace-Lorrainers on the west front follows on the heels of reported imprisonment of a complete regiment of Czechs in the Austrian army, who were regarded as "unreliable." It is the Czechs, largely who are fomenting unrest in Austria-Hungary.

MUST AWAKEN IN END, DECLARES CLEMENCEAU CONCERNING GERMANS

PARIS, Feb. 1.—"People like the Germans, possessing great qualities, must awaken in the end—but if militarism continues to reign, we are ready to meet the shock and reply fearfully that this war will be the last," declared Premier Clemenceau today.

The Premier's statement was contained in an interview granted the Amsterdam Telegraph.

"The Russian revolution is like a child prematurely born," he continued. "It has put us temporarily in a difficult position."

"Conditions in France are excellent. American troops are arriving regularly."

'SHOOT TO KILL' GERMAN ORDER AS MEANS TO END STRIKE

Ban Public Gatherings, Issue Hunger Orders In Attempt to Halt Trouble

AMSTERDAM, Feb. 1.—Germany is ready to "shoot to kill" as a final desperate means of putting down the general strike—and "no distinction will be made between strikers and others," it was officially announced in Berlin today.

The announcement supplemented the proclamation of the superior command forbidding all public meetings. "Everyone must quietly carry out their duties and avoid forming crowds," declared the statement. "If arms must be used there will be no distinction made between strikers and others."

PUBLIC GATHERINGS IN GERMANY BANNED

AMSTERDAM, Feb. 1.—All public meetings in Germany were banned today by order of the superior command, in an effort to suppress the general strike, according to dispatches from Berlin.

The official proclamation read: "Having introduced more drastic state of siege regulations, we intend to suppress every attempt to disturb peace or order by all means at our disposal. We, therefore, warn every orderly citizen not to participate in any public meetings."

DECLARE AGITATORS STARTING STRIKE

ROTTERDAM, Feb. 1.—"The bolshevik agitation in Germany is rendering our army defenseless and producing anarchy, according to the Russian pattern, with its accompanying symptoms of terrorism," declared the newspaper Nachrichten of Dusseldorf, copies of which were received here today.

"Agitators and wire-pullers are preparing the strike. We know it will increase the obstinacy of the bolshevik peace delegates."

The Cologne Volks Zeitung says: "The social-democratic party believes the time has come to translate into action a program concluding peace, satisfying its political demands. If these folk wish to gain the title of 'organizers of Germany's defeat,' let them continue. Then, Germany's tombstone, write 'Not conquered by enemies; deserted by traitors.'"

THREATEN STARVATION TO FORCE STRIKERS TO WORK

COPENHAGEN, Feb. 1.—Hunger is the latest weapon turned against the German strikers to force them into submission, it is believed here.

Trades union leaders in that country, bowing to the will of the militarists, are said to have turned against the strikers—withholding strike benefits in the hope of starving the protesting workers into acknowledgment of defeat.

This information was contained in dispatches received here today. It was further stated that while there are no riots in Berlin many disturbances continue in the suburbs.

HAIG REPULSES ENEMY RAIDERS NEAR ARLEUX

LONDON, Feb. 1.—An attempted enemy raid west of Arleux on Ghelle was repulsed last night and a few German prisoners taken, Field Marshal Haig reported today. There was hostile artillerying in the neighborhood of Gouzeaucourt.

45 KILLED WEDNESDAY IN RAID OVER PARIS

PARIS, Feb. 1.—Forty-five persons were killed, including eleven women and five children, and 207 were wounded in Wednesday night's German air raid on Paris, it was officially announced today.

PESSIMISM AS TO SINCERITY OF ALLY MINISTERS SHOWN

By JOSEPH SHAPLEN, United Press Staff Correspondent. (Copyright, 1918, by the United Press)

PETROGRAD, Jan. 28.—(Delayed.)—Foreign Minister Leon Trotsky today replied to the war aim declarations of President Wilson and Premier Lloyd George, through the United Press.

"Academically speaking, President Wilson's latest peace formula seeks to meet ours," declared the foreign minister in an interview at his office at Smolny Institute. "But if applied, in reality, it practically would result similarly to the German diplomacy."

"The central empires also originally accepted our formula in their declaration of December 27, where, after applying it practically, it resolved itself into an annexationist, imperialist demand under the cover of a democratic peace formula."

"Or, in other words, President Wilson accepts in principle the right of self-determination but refuses to go as far as the right of all subject nationalities everywhere to self-determination, not excluding complete independence, if desired."

Addressed to Austria "Manifestly President Wilson addressed himself primarily to Austria-Hungary. He is willing to concede autonomy to the nationalities within the dual monarchy from the central alliance. Mr. Wilson's latest formula was actuated primarily by the important fact that America does not seek territorial aggrandizement but is strengthening preparation for her own imperialism."

"The problem of the American middle class is to obtain the weakening of both imperialistic sides in the European conflict in order to make American capitalism the heir of European capitalism. That is why the praise bestowed upon us by Mr. Wilson, when only two weeks before the American and Entente press called us German agents, has not called out from our side the enthusiastic response expected."

Doubt Sincerity "At any rate, we believe if Mr. Wilson and Mr. Lloyd George really sought a quick peace, through their latest formulas, they should have shown it by consenting to join in general peace negotiations."

"Only by such participation could they have knocked out of the hands of the German government the main weapon by which it maintains internal discipline."

"The refusal of the Entente to join in negotiations enabled the German government to show its workmen that America, France and England desire Germany and therefore Germany must fight to the end."

"On the other hand, the participation of all the warring lands in the negotiations would have created such a peace sentiment among the peoples that it would have been impossible to renew the war after the long-welcomed armistice and would have forced a negotiated, democratic peace."

"Any attempt to renew the war after negotiations would undoubtedly result in the overthrow of all the governments. That is why the Entente fought shy of our invitation to join the general peace negotiations."

Desire to Crush Germany "They hope still to crush the central empires and they do not desire

BELIEVES SLAVS AT BAY; WHOLE WORLD HELD AS ENEMY

First Aid to Bolsheviki Must Come Through Seeing Their Side of Question

PREMIER MISSES U. S. PURPOSE IN STRUGGLE

Declaration Shows Leader Is Suspicious of Allies In All Undertakings

By J. W. T. MASON (Written for the United Press)

NEW YORK, Feb. 1.—Leon Trotsky's remarkable statement to the United Press on Russia's foreign relations shows that the Bolsheviki government believes it is international at bay, struggling for its own ideals of extreme democracy against a world of enemies.

To help Russia at this time, it is primarily necessary to know the Russian government's point of view. Trotsky has now supplied it. He is wrong about America's reasons for being in the war; but America has been wrong about the character of the Bolsheviki leaders. America saw the mistake first; the Bolsheviki have not yet realized theirs.

Trotsky's vehement denunciation of the western democracies reveals the nervous tremors and snarling offensive of a wounded animal fighting for its life against the pack. Trotsky shows that Russia thinks it has been stabbed by its democratic allies, for their own benefit. The news cannot have penetrated Russia that the Bolsheviki are winning American opinion to their side by the highest test of all—the test of results.

Cannot Join for Peace

Trotsky's plea that the allies join the peace negotiations at Brest Litovsk, as proof of their sincerity, cannot be accepted. The western nations see more clearly than do the Bolsheviki that the German militarists would become dominant if their demand for a secret conference were granted. Trotsky's present power over the people of the central empires is due very largely to the absence of allied statesmen from Brest Litovsk. The isolation of the Bolsheviki has permitted the Teutonic masses to believe there is no trick for any nation's undoing concealed in Trotsky's new kind of democracy.

It is practically certain that if Trotsky measured his words more carefully than he has done in his statement to the United Press there would be no internal disturbances at this time in Austria-Hungary and Germany. Trotsky's open diplomacy must be understood anew. It would be a catastrophe if the old western spirit of democracy arising in the East were to become permanently antagonistic. There is immediate work here for western statesmanship.

BOLSHEVIKI PREMIER'S LIFE THREATENED BY UNIDENTIFIED YOUTH

INVESTIGATORS EXPECT START HEARINGS AT ONCE

First Session Is Anticipated
For Early Part of
Next Week

The first session of the commission appointed by the food administration to investigate beet production costs will probably be held next week. Former State Senator Prescott F. Cogswell of El Monte has been named as chairman of the commission, and he will call the other members into session at once to arrange for the hearings. Cogswell is a walnut grower. The other members of the commission are Merle J. Rogers, judge of the superior court of Ventura county, and John Perry of Stockton, president of the State Agricultural Society and regent of the University of California.

The commission will not have the power to fix prices which the refiners can be forced to pay, and whatever its findings may be they will not be binding on the refiners.

Refiners so far have declined to say whether or not they will be represented at the hearings. Notwithstanding the fact that the appointment of the investigating body has been anticipated for more than a month, the factories' managers say they have arrived at no conclusion as to their action with reference to participation or non-participation in the hearings.

Directors of the Associated Beet Growers of Southern California will meet at the office of Attorney Clyde Bishop in this city tomorrow forenoon to discuss matters pertaining to the investigation. Beet growers in all sections of Southern California are

preparing to present cost data to the commission. Growers in the Van Nuys district will meet Monday night for action.

Telegraphic warrants of authority were received from Hoover yesterday by members of the commission as follows:

"You are hereby created a commission of inquiry to determine the cost of producing sugar beets in California and a fair profit thereon to the producer.

"When organized, you will proceed to hold public meetings in Los Angeles and such other places as may be necessary, giving notice to sugar beet producers. You will take testimony under oath with a shorthand record thereof, limiting testimony to cost of producing sugar beets and what will constitute a fair price thereon. You are authorized further to call for hearing producers other than those who appear voluntarily.

"On completion of testimony you will determine from the evidence the cost of producing beets in the districts covered by the testimony, and if such cannot be determined to a mathematical certainty, you then will determine what, in your best judgment, the costs are and arrive at a fair profit for the producer. You will thereafter embody in a written report to me the facts brought out by the evidence and your conclusions."

MILITARY SPIRIT IN CANADA IS FINE, SAYS TWIST

People Have Faith In Their
Arms and Are Backing
Their Soldiers

"With snow and ice and the thermometer registering below zero at Toronto, Canada, I found that I would be of little service as a soldier, for I could not stand the severe weather," said A. C. Twist, this morning, following his return from Canada, where he went a few weeks ago to offer his services in the equipment department of the army activities. He applied for a commission, but was advised that there was no opening at the time. The officer in charge told him, however, that enlistments for this service would be re-opened in the course of two or three months. In that event Twist will probably be called.

"The military spirit in Canada is fine," said Twist, "and the people there have every confidence of a final victory over the Huns. There is a big rush of volunteers for the flying service. There is no shortage of men for the army quota from Canada, and the service is being recruited regularly, as far as I could learn.

"I believe the people of Canada are a little more loyal in their observation of food regulations than are the people of the United States. This was particularly noticeable in hotels. On the menus everywhere were found suggestions for conservation regulations to be observed. There was no distress, however, because of shortages of supplies.

"It was cold at Toronto, and I had no opportunity to get in touch with the general situation to any great extent. When I found that I could not get into the service at once, I hurried to get back to California, the land of many blessings of which our home people are not as appreciative as they should be.

"It was extremely cold in the East at the points which I visited and it was 10 below zero in Chicago when I was there."

CALLS A HALT ON ITS PHONE PLANS

ANAHEIM, Feb. 1.—The Board of Trade discussed the proposed increase of rates incident to the telephone merger. The consensus of opinion was that the State Railroad Commission would take care of the rate situation and that a move for an independent system would be unwise. With this understanding the matter was not brought up at the meeting of the Associated Chambers of Commerce.

The matter of setting out ornamental trees along the streets was discussed and finally turned over to a committee for action.

If you would get an adequate idea of the enormity of the revenue tax collecting job, just visit the office of Inspector W. A. Cornelius at the court house or ask any of the bank people.

Collector Carter of Los Angeles has just received information from the office of the Commissioner of Internal Revenue to the effect that nearly ten times as many returns must be filed under the War Revenue Act for the year 1917 as were required to be filed for the year 1916, owing largely to the extension of the income tax features of the law to smaller personal incomes.

The banks and trust companies of the country have been and are of

great assistance to taxpayers in the preparation of tax returns, by collating and publishing not only the text of the law, but also the numerous necessary regulations and rulings of the Department, and by furnishing the services of their accounting experts in the preparation of the returns of individual and corporate taxpayers in conformity to such legal requirements. All of that service is furnished entirely at the expense of the banks and trust companies, not only as a convenience to their customers and others, but also as a patriotic duty, and is in line with the services that have been so freely extended in connection with the several Liberty Loans.

The preparation of returns under the new law is in some instances more difficult than under the previous law, and must be met by so many more taxpayers that such expert service is even more desirable than heretofore, and should be and undoubtedly is duly appreciated. "And the newspapers of the country," Collector Carter says, "have been of invaluable assistance in disseminating information regarding the preparation of the income tax law, and it is thought that before March 1st arrives, there will be no excuse for any individual failing to make return of his income, if he were in receipt of an income sufficiently large to require him to make return."

Statement of income must be made by all unmarried individuals if they received an income of \$1,000 or more, and by all married individuals if they received an income of \$2,000 or more during the year 1917.

"The government," says Mr. Cornelius today, "that to meet the increased demand and necessity for assistance, the banks and trust companies are arranging to devote still more time and study to the matter, for the purpose of assisting in the preparation of returns, and the Bureau of Internal Revenue has often expressed its high appreciation of such patriotic services, and its desire to have the newspapers, banks and trust companies co-operate in promulgating the requirements of the law, and in assisting in the preparation of returns provided by the statute of the departmental regulations and rulings, and, so far as possible, to aid in extending to the taxpayers such gratuitous advice and assistance."

It is urged that all persons and corporations liable for income tax pay such tax when they file their return. By so doing, discount at the rate of 3 per cent per annum will be given.

FIVE AMERICANS IN BELGIUM BARRED FROM GOING INTO HOLLAND

WASHINGTON, Feb. 1.—The five remaining Americans in Belgium have been denied the right to enter Holland since January 16, the Spanish minister at Brussels has informed our minister at The Hague, State Department dispatches said today. This government does not understand why the Germans have imposed this restriction unless it is in retaliation for the fact that Germans are not permitted to leave the United States. The American government does not know who the five Americans are.

RETURNS TO CITY TO SPECIALIZE PALO VERDE ACREAGE

A. F. Isaacson County Representative of California
Southern Realty Co.

A. F. Isaacson, former auto dealer of Santa Ana, has returned. With offices at 203 Spurgeon building he is now Orange county representative for the California Southern Realty Company. He will specialize in Palo Verde Valley land.

Isaacson had the Oldsmobile agency here three years ago, going from here to Riverside. He sold his business there last spring and returned to Santa Ana just recently. With his family he is making his home at 203 East Tenth street. As the owner of eighty acres in the fertile Palo Verde Valley Isaacson had ample opportunity to study conditions and developments there. The desire to become further interested caused him to seek the agency for this section.

A number of Orange county individuals and ranchers are owners of Palo Verde land, which is reputed to be as good if not better land than the famous Nile River country in Egypt. "Palo Verde is a two-crop country," says Isaacson. "Fed by the ever-flowing Colorado, it has a subsoil of great depth and fertility. A bond issue has just been voted to extend the levee. This adds 60,000 acres to Palo Verde Valley. Approximately 15,000 acres were planted to cotton last year, this and alfalfa being the principal crops."

FRYE BROTHERS IN TANK AND SUBMARINE BRANCHES

Herschel Frye Transferred to
Washington, Lawrence
Enlists at San Pedro

With Herschel Frye on his way to Washington, D. C., later to be identified with a tank crew in France, and Lawrence Frye enlisting at San Pedro yesterday for service on a submarine, the Frye family of this city is doing its bit in the Government's activities preparatory to putting the Kaiser in cold storage.

The boys are sons of Mrs. Helen Frye. Herschel has been a member of Company L for some time and was with the company on the border. He has been at Camp Kearny since the company was transferred to that cantonment. He has been transferred to the 41st Engineers' Corps and passed through Santa Ana Wednesday afternoon on his way to Washington, D. C. His mother and brother met him at the depot. He said that he expected to go to France at once.

Lawrence Frye went to San Pedro today to commence his training for submarine work. He enlisted in the navy as a wheelwright, with assignment to the submarine branch.

APPEALS COVER EVERY CASE OF MAN MARRIED SINCE MAY

Those Recently Wedded and
Put In Class 2 or Class
4 to Go Up

The case of every man married since May 18 and who has been placed by the local board in any other class than Class 1, is to be appealed to the district board in Los Angeles.

Recently word came from Washington that the Government was going to proceed upon the theory that a registrant who married after May 18 may have done so to avoid the draft. Today the local board received a general instruction given all Government attorneys to take appeals in all dependency cases in which deferred classifications were granted to men married after the day that the conscription act was passed by Congress, May 18.

At the headquarters of the local board, Mrs. Swanwick, clerk, is preparing the lists, which are being turned over to Clyde Bishop, Government attorney in this exemption district. She has found that a number of men married since May 18 and who were put in Class 2 by the local board were not satisfied with the classification and have appealed, hoping to be put in Class 4 by the appeal board.

There are, however, twenty men married since May 18 who have been placed in Class B2 and who took no appeal. This includes the entire registration list. There are eight who were placed in Class 4 whose order numbers are under 600. Those with order numbers over 600 have not yet been listed.

Upon these appeals, the query will be to determine why these men should not be placed in Class 1.

SEPARATE SCHOOL FOR MEXICANS

The subject of the segregation of Mexican children of the lower grades is one that will not down. Yesterday it popped up here as the paramount question at a conference upon the Americanization of foreigners. It is quite natural that it should have been the phase of Americanization of most direct interest to residents of Santa Ana, for the Mexican is the only foreign problem with which this city locally has to deal.

Confessedly there is but one solution of the problem that is presented in the lower grades of the Santa Ana schools, particularly at Lincoln and Roosevelt schools. That solution, urged by parents and teachers, is the segregation of the Mexican children. The question is one that has been argued out time and again, and there has been but one answer—a separate school or, at least, separate rooms, for the Mexican children.

There is not a teacher and never has been a teacher in the Santa Ana schools who has had anything to do with the Mexican problem in the schools who will not most emphatically tell you that the presence of Mexicans in classes with American boys and girls is a hindrance to the progress of both Mexicans and Americans. American children must remain at a standstill in their studies while Juan and Josefa are being taught what the words, "Take your seats" and "Good morning," mean. Juan and Josefa do not know enough English to promise to wash their faces before returning to school next day or to comprehend what the teacher is talking about when she suggests a bath.

Discussion of the physical phase of the matter may be dismissed by saying that pink-eye, itch and crawly things are not the only menaces for which the weather eye of the school nurse and teacher must be peeled when the Mexican child, unkempt and unclean, arrives from Mexico and takes a seat across the aisle from a freshly bathed, healthy American boy or girl.

If Juan and Josefa were in a school where their own patricular wants could be looked after they would make far more progress than it is possible for them to make under present conditions. That point is conceded by all of the school authorities. In fact, the baffling feature of the whole problem is that for some years past all of the school authorities have admitted the crying necessity of the segregation of Mexican children, yet they have not gone ahead with the segregation.

Conditions, instead of being bettered, are getting worse. Mexicans, ever increasing in numbers, are crowded into schools that would be crowded if only Americans were there. When it is remembered that this subject has been agitated and discussed until there is no longer any argument, one cannot blame the parent-teacher associations for becoming impatient.

A year ago it was all threshed out again, just as it is being threshed out now. The answer of the school board a year ago was, "We have no money." That has always been the answer, and it is still the answer. However, last September the school board made a tax levy and left out the levy for a Mexican school. The explanation at the time was that an additional levy was needed for high school purposes, and if the high school levy went on there should not be a raise for the lower grades also. The Register's conclusion, editorially expressed at the time, was that it was another instance of the altogether too prevalent tendency in California to sacrifice the lower grades in favor of the high schools. That tendency among educators is wrong. The theory of it puts the interest of the few paramount to the interest of the many. In the present instance, it seemed to those desiring action upon the Mexican problem that a crowded condition at the high school, where pupils are older and better able to stand what inconveniences had developed in a year or two, was given relief in preference to providing for the physical and mental wants of American children and the mental wants of Mexican children in the lower grades—a condition that has existed

Bud Flivver's Observations

*** Lawyers have some—Funny ways—Of doing things—
And the courts—Seem to humor them—Quite considerable—
*** The other morning—Abner Whitnell—Was called to court—As a witness—In a divorce suit—And he wanted—I should go with him—
*** And when we—Got to the court house—The bailiff herded us—Into groups—Separating the witnesses—From the common people—
*** And he explained—The reason he did that—Was so that the witnesses—Wouldn't get in—And hear the testimony—
*** And each time—They called a witness—To the stand—They would make him swear—To "tell the truth—The whole truth—And nothing but the truth"—
*** And right away—The lawyers—Would start in—To make the witness—Tell a lie—
*** And after a while—They called Abner in—And he took the oath—And took his seat—And took a long breath—
*** And the lawyer—Asked him some questions—For the plaintiff—And he answered them—In good shape—
*** And the lawyer—For the defense—Began to—Cross question him—In a crabbed—Sort of way—And it got Abner riled—
*** And the attorney—Asked him—Had the plaintiff—And the defendant—Ever lived at his house—And he said—They had three months—
*** And he asked—Wasn't the defendant—Kind to his wife—And Abner said—He wasn't even—Half decent to her—
*** And the lawyer asked—Wasn't the plaintiff—Kept nice and comfortable—And warm—While they lived—At your house?—
*** And Abner said—"Oh, I guess—She was kept—Good and warm—All right—It was July"—
*** And everybody—Smiled as loud—As they dared to—In a court room—
*** And the lawyer—Got mad—And he sailed in—And asked Abner—All kinds—Of fool questions—As fast as he could—
*** And pretty soon—Abner got all balled up—And he got mad—And contradicted himself—And his testimony—Was no account—
*** And Abner—Is a straight fellow—And it seems to me—The court shouldn't allow—A lawyer—To make an honest man—Tell a lie—By Bud.

Corporations Must Pay Franchise Tax at Once

Corporations are not paying their franchise tax to the state as fast as in former years, and State Treasurer Friend W. Richardson has sent out a warning notice to the banks and newspapers to advise companies to save themselves the penalty provided for delinquency.

Collections to date net \$1,147,311.86 and \$6,646,661.57 is still due. So far 3,931 corporations have paid up and over 14,000 corporations have not remitted.

since before the Poly High was built.

It is all very plain what should be done, what ought to have been done last year and the year before, but the query as to what is going to be done the coming year will probably be put up to the school authorities again this year.

RED CROSS TO DECIDE WHETHER OR NOT IT IS TO KEEP THE ARMORY

State Quits Paying Rent, and Local Chapter Has a Chance to Take It

At its meeting next Thursday afternoon, the executive committee of the Santa Ana Red Cross is to decide whether or not it will rent the Armory from the Santa Ana Army Company. Formal notification has been received, and the directors of the company are willing that the Red Cross take over the entire building at a rental of \$65 a month, which will be reduced probably \$15 by a storage arrangement with the state.

T. E. Stephenson, president of the Red Cross, said that the question of move or rent will be put up to the executive committee. If there are other proposals for headquarters to be made terms should be stated to Stephenson or the secretary, Dr. Wehrly, previous to the meeting, so that the executive committee may consider the situation and reach an early decision.

CAN'T SELL PORK TO BE USED ON SUNDAY SAYS NEW FOOD RULE

LOS ANGELES, Feb. 1.—The restrictions on the sale of pork are to be drawn tighter in accordance with a message received by Vernon Goodwin, local representative of the Food Administrator, from Ralph P. Merritt, Food Commissioner for California, yesterday.

Pork must not be sold on Saturday now for consumption on Sunday, declares Mr. Merritt, and continues: "New direction regarding porkless days, Tuesdays and Saturdays, asks all retail dealers to not sell pork products at all on either day."

"This supercedes former advice regarding Saturdays, which permitted sales for Sunday consumption. The urgent necessity for full, strict and patriotic observance of both days in all classes makes new direction necessary."

Happy Day Passed by Old
Friends Yesterday at
Garden Grove

The Auld Lang Syne Club was entertained Thursday by Mrs. W. B. Harper of Garden Grove. The patriotic decorations, flowers, flags and place cards were most attractive, also the birthday cake in honor of Billy Bob Newsum, with its one candle, delighted the little folks.

After the sumptuous dinner, recollections of old times and old school songs made the time fly all too quickly.

A picture taken of the following members and guests by the side of the old school bell and seats, will be highly treasured: Mrs. Jo Lowell, Miss Percy Head, Santa Ana; Mrs. Abe Johnson, Irvine; Mrs. Will Newsom, Rivera; Mrs. Ed Chaffee, Mrs. Harvey Newsom, Mrs. Willis Newsom, Mrs. John Mitchell, Mrs. Arthur Stanley, Mrs. Roy Oldfield, Miss Bertha Robinson, Mrs. W. B. Harper, Mrs. Frank Mills, Mrs. Fred Harrison of Garden Grove.

The Seaman family and Mrs. Earl Marshall of Los Angeles and the Seay family from Long Beach also joined the merry company.

Travellers Meeting

The First Travellers' Section of the Elbell is to meet Monday afternoon at 2 o'clock at the home of Mrs. Stephen Ross on South Main street.

Travellers to Meet

Travel Section No. 2 will meet next Monday afternoon with Mrs. J. W. Blee, 335 East Pine street. The subject will be "Russian Literature."

ANALYSIS OF GOSPEL
DISCUSSED AT CHURCH

Apostle John W. Rushton spoke at the Saints Church, corner Fifth and Flower, on "An Analysis of the Gospel" last night.

He divided the Gospel into two great divisions, the essential principle and its mechanism. The first he declared was intangible; the second, physical, hence tangible.

He extracts the essential principle from the statement of Paul in his letter to the Romans, viz.: "I am not ashamed of the Gospel of Christ, for it is the power of God unto Salvation. For therein is the righteousness of God revealed."

He said Paul was not discussing the mechanical, but the spiritual, moral and mental essences. "Righteousness is a moral quality," said he. "The doctrine, ritual and institution made up the mechanical part, each having its class of words by which it was distinguished."

"This analysis must be made and appreciated to understand Paul's application."

The word "Power" and its widely reaching influence to save Jew and Greek was emphasized.

He met the question of His existence by saying that it is scientifically demonstrable by the fact that since man was a part of nature, and a very important part, and that he as well as all other phenomena were the result of an adequate cause, that the cause must be greater than the effect. Therefore a greater being than man.

Concerning salvation, he declared that however wonderfully powerful God may be, His power is limited in the matter of Salvation, since Salvation is dependent upon man's co-operation with God.

"The Gospel of Christ can save you as you believe it and live faithfully by it," said he. He closed by quoting,

Keep the Children Well

To keep the little ones well, sturdy and happy, free of coughs, colds, croup, little fevers and inflamed throats, use

Foley's Honey and Tar.

It is carefully made of selected remedies that loosen and break up a cough, stop croup and ease an aching inflamed throat, and it is clean of all narcotics. The prompt use of Foley's Honey and Tar is very helpful for whooping cough, and the restless feverish state that attends children's diseases.

M. T. Davis, Bearville, W. Va., writes:—"One of my patrons had a small child take a bottle of Foley's Honey and Tar and before morning the child was entirely recovered."

The Purchase of a Suit and

Biggest Dividend-
Producing Investment You
Can Make

Some men do not seem to realize the seriousness of the wool situation. Here is an illustration: Our heaviest Duofold underwear sells today at \$4.50 the suit. On Thursday we placed our fall order at a higher price wholesale than this; the retail price to be \$7.00 per suit. Two suits now cost you \$9; next fall, \$14. On a \$9 investment you make \$5 profit by buying now.

By putting this underwear away and holding it we can make more than to sell it. But we are merchants—not speculators.

Save \$5⁰⁰ to \$10⁰⁰ on Your
Suit or Overcoat

You'll not alone save this money; but you'll not get as good quality of wool later. You're going to see the poorest fabrics in summer suits you ever saw.

Though we cannot replace our stock at the prices we paid last year, our prices are based on the original cost; far below their present retail value.

SHRINERS GOING TO
PUT ON ENTERTAINMENT
FOR LOCAL RED CROSS

Santa Ana Commandery Arranges For Unique Affair
on February 25

On February 25 a hundred Shriners from Los Angeles, including many of the best known men in California, are to parade the streets of Santa Ana, and will present in Santa Ana an entertainment for the benefit of the Santa Ana Red Cross.

Santa Ana Commandery, Knights Templar, has arranged for the coming of the Shriners, with the so-called view of swelling the funds of the Red Cross chapter, and the proposal met with an enthusiastic response. The Shriners replied that they would come, pay their own expenses, and turn over every cent of the proceeds to the Red Cross.

The Shriners have been presenting some unique and exceedingly clever entertainments in Los Angeles, and the one here will be full of unusual stunts.

REASON WHY SCHOOL
AUTHORITIES FAILED
TO ATTEND IS GIVEN

Today it was learned how it came that school authorities failed to attend the Americanization conference held at the city hall yesterday. The Register's report stated that they were conspicuous by reason of their absence inasmuch as they had been invited to attend. Today it was learned that City School Superintendent Cranston was invited a week ago, and he said he could not attend because he had another important appointment yesterday. He said that he would ask Miss Cartmell, the school nurse, who is thoroughly familiar with conditions, to attend the meeting, which she did. Members of the school board were not notified of the meeting until yesterday morning just before the meeting. The secretary, F. L. Andrews, who with others of the board is deeply interested in the Mexican problem, was just leaving his office to address a meeting at Huntington Beach. The president, R. R. Smith, was out of town and never received an invitation. Other members of the board were equally unable to be present.

COMMERCE CARD TO BE
VALUABLE TO MEMBERS

The Chamber of Commerce is issuing cards to members in good standing that makes a room in the Chamber of Commerce in Los Angeles available to them for conferences or place of meeting. Parcels may be checked without charge and telephones, city directory and other conveniences are open to those who present cards identifying them with the Chamber. The same privilege is extended to members of other Chambers in Southern California. The card also serves as an introduction when presented at other Chambers of Commerce in Southern California.

BURKE FROWNS
ON CHAPMAN.
STEIN STUNT

Refuses to Appear on Stage
at Elk's Show With
Local Comedians

At the rehearsal of the Elks Show "Dolly Dimples," last night, quite a lot of excitement was caused by Joe Burke. It seemed that somehow Joe found out what the stunt is that Fred Chapman and Sam Stein are going to put on, and he has positively refused to be in the same cast, saying that as the State Representative from this district he has a reputation to maintain. How he got onto the "secret stunt" remains a mystery, as all the rehearsals of Sam's and Fred's were held behind closed doors.

Sam Stein, when interviewed, "STOUTLY" maintained that the stunt is strictly O. K. and nothing will induce him to lay off on it. Fred Chapman won't say a word—he just grins.

Geo. Edgar, when seen about it, said he "did not care what it was, this being a Democratic Administration, anything went."

District Attorney L. A. West, a member of the Elks, says he "must be convinced that everything is all right before the act can be put on."

Miss Miller, who is putting on the play, says she has washed her hands of the whole matter and that Mr. Burke and Mr. Stein must settle this between themselves, as both MUST appear in the show.

Interesting results are looked for.

SPEAKER POINTS OUT NECESSITY MAKING THEM UNDERSTAND

Some Conditions Concerning Foreigners Discussed at Meeting Here

At a meeting held yesterday afternoon at the First Baptist Church Mrs. Frank Gibson and Miss Richardson of Los Angeles spoke on the subject of "Americanization." Mrs. Gibson said: "The importance of sufficiently Americanizing the foreigners to enable the United States to secure their intelligent and loyal co-operation in the war is the principal work of Americanization now."

FEW CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

Save Your Hair! Make It Thick, Wavy and Beautiful—Try This!

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Valentines At Sam Stein's of Course

at that time in the United States, between the ages of twenty-one and thirty-one, 1,243,000 foreigners by birth or parentage who were not American citizens. Without their loyalty the outlook is somewhat dubious. With it, success is sure.

"California has a larger proportion of registered aliens than any other state. Most of these aliens are either in isolated rural communities or in the congested city tenement districts. The rural population is reached most effectively through the schools, and the city aliens through the schools and settlement work. It is essential that the schools in foreign neighborhoods have curriculums suited to the pupils' needs. The adult aliens are reached through the night schools, and they must be made familiar with the English language as it is suited to their needs, not as it is essential to so-called higher education."

"Through the children are reached through the elementary schools and the men through the night schools, no very successful way to reach the foreign women has yet been found. Her husband and children in school and by contact with employers, learn the English language, but the immigrant woman, at home with her babies, has only other immigrant women to talk to. The home teacher law, passed by the last legislature, makes California the first state to recognize by law the necessity to reach and educate the immigrant women. In Los Angeles last summer two dozen classes were started in various parts of the city by students from the Normal school, trained in teaching the English language. These classes were a complete success. If efficient night schools and home teachers had been in use for some years, the present urgent need for action would not have arisen, but the present unrest caused by aliens' inability to comprehend the draft has made immediate action necessary. The foreigner must be made to realize that in the army he will be fed, clothed and treated exactly as are American boys, and that his dependents will be given the same allowances. He must be made to understand that he must avail himself of the insurance privileges offered, so that his dependents may not in time perhaps become a public charge. The last date on which the boys now in the army can take out insurance is February 12."

Mrs. Gibson urged the necessity of making the Mexicans in Southern California realize that they are an economic asset to the state, that farmers and other employers need them, and that they are a part of the community. She said, "There are 113,000 Mexicans in Southern California, and 30,000 in Los Angeles. Their experience and knowledge of American law is that it is a punitive agent, not a protective one. They are told that if they don't register they will be put in jail, that if they fail to report for examination they will be put in jail, that if they fail to receive or answer their questionnaires they will be put in jail. Yet no one seems to take any particular pains to see that they understand any of these things. The foreign bureau gets, on an average, five Mexicans out of the Los Angeles jail every day whose offense is their failure to register, when they didn't understand anything about registering."

There is a lot to be done if we want to be sure our boys are harvested this year, and the County Committee organized at the morning conference will be the nucleus for such work. Through this committee plans will be made for reaching the women as well as the men and the children, and some great good must come of it. In closing the meeting, Mrs. Weston announced that next month the Women's Committee will hold an open meeting to discuss "Women in Industry," following up the Defense Council work in holding the Americanization meeting yesterday and the Food Conservation meeting in December.

TEUTON ATTEMPT TO RECAPTURE GROUND MEETS WITH FAILURE

ROME, Feb. 1.—Repeated and unsuccessful enemy attempts to regain the ground lost around Cassoroso culminated in a sudden thrust at dawn, with the attack breaking down under fire before it reached the Italian lines, the official statement today said.

GARDEN GROVE TO THE FRONT IN PURCHASE OF STAMPS

Sales Aggregate \$2304 Since the Campaign Started January 1

Garden Grove today is credited with \$2304 in thrift stamp sales, making a fine record for that vicinity. It shows that Postmaster F. C. Thompson is doing effective promotion work and that the people of his community are right back of him.

Thompson and his co-operators in the campaign at Garden Grove started to work early and there has been no let up in organization work. "Here, the government needs this, and it is better to have the government use it than to have it lying around the house," said Mrs. Stillings of that city one day this week as she showed 365 Lincoln pennies and \$4.60 in Buffalo nickels through the window and directed Postmaster Thompson to issue her stamps and certificate in lieu of the money. Mrs. Stillings had made the saving of Lincoln pennies and Buffalo nickels a hobby, and she has given up the pleasure of collecting them in order that they might be turned to the service of the government in carrying on its war activities.

Thompson reports that Japanese are good buyers of thrift stamps, and frequently has one of the little brown men at his window with money to lend to buy either a major portion or full card of war savings certificates. Postmaster Albhorn of Anaheim reported to County Chairman John McFadden this morning that \$500 worth of stamps were sold there yesterday. The Santa Ana postoffice yesterday had its largest day's business in the sale of stamps, filling orders to the amount of \$1404.61.

AT THE COURTHOUSE HARPER IS SENT TO PRISON FOR SWINDLING

Failure to Tell Truth Goes a Long Way to Forbid Probation

"You deserve probation about as little as anyone who ever asked me for it," said Judge West this morning to Joy P. Harper, as he sentenced Harper to San Quentin for a term of from one to ten years. Harper is the man who sold an automobile he did not own to Rev. J. A. Stevenson, pastor of the First Presbyterian church. After Harper was arrested and brought back he threatened to sue the minister and the officers for having him arrested. His bold front failed to impress anyone, because, the officers say, from the first his stories have tangled themselves considerably. The longer Harper's plea for probation was investigated, the less likely his chances for probation appeared. What is said to have been an unwillingness to tell the truth cost him a lot of sympathy. He failed to help locate a \$100 Liberty bond received from Rev. Stevenson in the trade. An Anaheim bank

is out \$275 for having cashed a check upon which Rev. Stevenson had stopped payment. Harper is to go to prison on a charge of getting money under false pretenses. He formerly lived at Anaheim. His parents live at Escondido.

Suing Again
Suit for divorce has been brought by William J. Richardson against Lowell H. Richardson. Suit was brought on March 5, 1917, and was dismissed recently so that a new action could be brought. D. G. Wetlin of Orange is attorney for the plaintiff.

Case Dismissed
Upon the dismissal of the action brought by the Olive and West Orange Protection District against Jacob Bargsten Attorney Koepsel has secured judgment for costs in favor of the defendant. Suit was for a right of way for the protection district.

Settling Cases
That the Pacific Electric and property owners along the proposed right of way from Santa Ana to Irvine are reaching agreements rapidly was indicated when the superior court was notified by Attorney H. J. Forgy for the P. E. to cancel the call for juries in three condemnation actions. This notification came because settlements out of court are being made. The cases included in the notification are those brought against P. B. Browning, S. W. Stanley and C. P. Rice.

Divorce Is Given
This afternoon Judge Thomas granted an interlocutory decree of divorce to Mrs. Ruby De Ford against Eugene E. De Ford.

Set For Trial
This morning Judge West set cases for trial as follows: Matsunaga vs. Wood, April 8; Rimpau vs. Continental Commercial Association, Feb. 8; Winbiger vs. Thuet, March 16; Almitos Land Co. vs. Stanton, Feb. 26; Judge Thomas set cases as follows: Locke vs. Standard Oil Co., April 8; Brown vs. Cook, April 22; Domann vs. Parker, March 16.

First papers of citizenship were taken out today by Thomas Wilson, 31, living on Santa Ana R. D. 4. He was born in Glenhuron, Ont., Can., and came to this country in 1913.

BOLSHEVIKI SEIZED ROUMANIAN VESSELS

PETROGRAD, Feb. 1.—The Bolsheviks have seized scores of Roumanian ships at Odessa, including armed craft, in retaliation for the invasion of Bassarabia. Despite this hostile move the Bolshevik government hopes there will be no real war with Roumania because it desires no war with any people, only with governments, it is stated.

TEDFORD TO MAKE NOTE, INTEREST COLLECTIONS

Assistant Cashier at First National Provided With Private Office

W. B. Tedford, assistant cashier at the First National Bank, is not taking in and passing out cash at the bank any more in the manner he has been doing it for some years past.

In the rearrangement of the office at the bank, he has been provided with a private office and window and in future will give his entire attention to note and interest collections, as well as deposits made for various funds created through public subscriptions. His desk and office is at the window formerly occupied by F. M. Robinson, and Robinson has succeeded to the corner window held for so long by Tedford.

The increasing volume of business transacted by the bank has made the change imperative and the addition of a teller necessary. Announcement that M. C. Rowland, a former banker in Nebraska, had accepted a position as teller in the bank was made a few days ago.

Nearly all cacti are leafless, their stems performing the necessary functions. Even the phyllocacti or leaf cacti have no leaves, but the stems are thick, lobed, leaf-like in structure, but if grown in the dark they lose this form and bear only rod-like stems.

It will soon be time to plant that patch of native wild flower seeds. Fertile and stir the soil, though garden soils seldom need more plant food for native annuals. Wet the soil well, to start the weeds. When the first rain comes the weeds will all have been killed and you may sow your wild garden under the assurance of a good crop fairly free from weed pests.

What the Merchants
 Have to Offer You

TUSTIN C. OF C. IN DISCUSSION OF IMPORTANT QUESTIONS

Gathering Monday Evening
 Brings Up Many Matters
 of Interest Locally

The regular monthly meeting of the Tustin Chamber of Commerce was held Monday night in the eighth grade room at the school house.

The meeting opened with the president, I. L. Marchant, in the chair. B. P. Beswick was appointed secretary in the absence of Mr. Stanley. After approval of minutes of last meeting, several communications were read. A letter was read from the Federal postal department asking for information about the mail service in Tustin. It was the opinion of

those present that the mail service was satisfactory except in regard to the Santa Ana rural routes, some of them coming within less than half a mile of the Tustin postoffice and it seemed as though Tustin should have these rural routes nearest to its own postoffice. As there was no one present who was familiar with the rules and requirements of a town asking for rural routes, a committee was appointed to look into the matter before answering the letter. The committee were the following: J. A. Phinney, S. W. Stanley and D. L. McCharles.

A communication was read from the Orange County Associated Chambers, signed by R. L. Bisby, in regard to Tustin's contribution for participation in the San Bernardino Orange Show. Motion carried that the Tustin Chamber was willing to pay their pro rata of the expense incurred by the Associated Chambers for the orange show.

Some of the subjects of vital interest to all towns in the county, which were to come before the Associated Chambers meeting at Brea on Wednesday night, were discussed after a communication was read from the secretary, Mr. Metzgar.

A letter to the Tustin Chamber from the Railroad Commission stated that a hearing had been set, in the case of the Southern Counties Gas Company's plea to have their rates adjusted, for February 13, at 10 a. m. in the Union League building, Los Angeles. After a discussion of the matter of a representative to attend this meeting, it was moved that a committee be appointed to attend the hearing and be on hand to instruct the lawyer or representative of the Associated Chambers as to the views and wishes of the Tustin people in this matter. The committee appointed was A. E. Bennett, C. E. Utt, and Jasper Leck.

The committee on entertainment was called upon for a report. As no entertainment had been given, motion carried to continue the committee. There was some discussion of the advantages to be derived from a mutual county telephone company and other questions coming up which should deeply interest every citizen of Tustin. There being no better way of settling these matters satisfactorily than getting together at the Chamber of Commerce meetings, the people of Tustin are urged to attend the meetings and make the Chamber of Commerce a real benefit to the place.

LADIES' AID SOCIETY

There will be a meeting of the Tustin Presbyterian Ladies' Aid Society next Friday afternoon at the church. An important matter of business will be the appointing of a nominating committee for the election of officers to serve for the coming year.

ECONOMIC SECTION HELD GOOD MEETING

Red Cross Work Takes Up
 Time of Women While They
 Chat During Afternoon

The monthly meeting of the Tustin Economic Section was held Wednesday afternoon at the home of Mrs. Charles Bowman.

Red Cross work employed the ladies during the afternoon and the ladies busied themselves making hospital socks. Mrs. Bowman is one of those who does not believe in altogether giving up serving refreshments, realizing the social feeling encouraged when two or three are sipping a cup of tea together. There is real need for fostering sociability in Tustin because it is now so easy in these days of automobiles to go off to other places for all needs.

Mrs. Bowman broke the rule by serving light refreshments and it proved to be a delightful break in the afternoon work.

Those present were Mrs. W. L. Leiby, Mrs. Oscar Leiby, Mrs. E. M. Nealley, Mrs. A. J. Crookshank, Mrs. S. W. Stanley, Mrs. Hugh Plumb, Mrs. Wittman, Mrs. Fred Preble, and Miss Minnie C. Childs.

TUSTIN JR. RED CROSS BOOSTS FOR MEMBERS.

Children Active in Getting in
 Salvage Material to Pay
 Initial Cost

The Tustin Junior Red Cross expects to have one-fourth of its enrollment fee by the end of the week. As soon as the officers have this in hand they can ask for their charter.

A week ago Mr. Hush of Los Angeles, visited the Tustin school and told the boys and girls about the drive which is to be conducted February 12 to 22, and Tustin decided to start right away. One boy started out early the next morning and by school time had gathered a wagon load of newspapers. Boxes of lead and foil are accumulating and cancelled stamps are piling up. A thousand of these stamps from the sale of dye in them will keep a Belgian child a month.

Donations of some very nice material have been sent in and the girls are making garments for little children in the sewing class. Grade mothers are being appointed, each teacher selecting one from her grade, and this mother will be asked to interest other mothers in the work of preparing sewing for the different groups of girls making garments and the children in other work. There was an enthusiastic meeting of the grade mothers on Tuesday. President Wilson expects to raise \$22,000,000 in this work, and each child in Tustin is expected to raise 25 cents or more of this money.

Miss Florence Henderson was elected secretary of grade mothers.

Vegetable Compound.

Winona, Minn.—“I suffered for more than a year from nervousness, and was so bad I could not rest at night—would lie awake and get so nervous I would have to get up and walk around and in the morning would be all tired out. I read about Lydia E. Pinkham's Vegetable Compound and thought I would try it. My nervousness soon left me. I sleep well and feel fine in the morning and able to do my work. I gladly recommend Lydia E. Pinkham's Vegetable Compound to make weak nerves strong.”—Mrs. ALBERT SULTZ, 603 Olmstead St., Winona, Minn.

How often do we hear the expression among women, “I am so nervous, I cannot sleep,” or “it seems as though I should fly.” Such women should profit by Mrs. Sultz's experience and give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

For forty years it has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for such ailments.

**DON'T FUSS WITH
MUSTARD PLASTERS!**

Musterole Works Easier, Quicker
and Without the Blister

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole.

Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of out-of-date mustard plasters, and will not blister.

Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bite, colds of the chest (it often prevents pneumonia).

Life In Army Agrees With
Man From Talbert Who
Has Gained 17 Pounds

TALBERT, Feb. 1.—Mrs. Henry Dunchoo received a photograph this week from her brother, Ed Hanley, showing the Christmas dinner table of his company at American Lake which would forever dispel the idea, if one had it, that the soldier boys do not get the very best of fare. Hanley is well pleased with camp life and says he hopes nothing comes up that will necessitate his being returned for he is anxious to get to France. He had just taken the heart and lung test and received a high rating. He is chief cook for his company and this would seem to agree with him, he having come up in weight from 128 to 145 pounds since leaving here in November.

Ernest Plavan and sister, Miss Alma, returned to Perris Monday of this week following a week's visit at their home here. Their stay was cut short owing to the inch of rainfall in the Perris Valley necessitating further ranch work there immediately.

Ernest was put in the fourth class by the exemption board but it is his intention to enter the service as soon as the crops are all in.

Mr. and Mrs. J. Bullock of Santa Ana visited Wednesday evening with their son, Harold Bullock, and wife.

A few cabbages were cut on the S. E. ranch this week but it was decided best to wait another week before cutting more so the heads would become firmer. A buyer was here Tuesday offering \$50 per ton, an increase of \$20 over last week's price.

Six hundred and fifty acres of sugar beets had been planted up to the first of this week.

Mrs. W. A. Jones and son Perry moved back to Talbert Saturday after a several months' absence at Huntington Beach and are located in the Ater residence. Perry Jones is in the employ of A. F. Swift.

An error was made last week in stating the Ater place had been purchased by John Cubbon of Santa Ana, L. T. Wells of this place being the purchaser.

F. Morita, a Japanese, who has been farming the Phelan ranch adjoining Mrs. Ellis' ranch, is moving to Cypress. Morita has lived in and about Talbert a number of years.

Mr. and Mrs. Wilbur Weddle and family were Tuesday visitors at the home of their cousin, S. E. Talbert.

Mrs. Ray Wardlow visited Tuesday with Mrs. Robert Harper.

R. B. Wardlow was out from Santa Ana Tuesday and spent the day at the home of his son, Ray Wardlow.

S. P. Williams and family moved the past week from Hollywood into a cottage on the Gregg Harper ranch. Williams is employed by Harper.

Enjoying Eastern Trip

Mr. and Mrs. F. D. Plavan are enjoying a very pleasant visit with friends and relatives at Monet, Mo., in spite of cold and storms, as told in a letter received this week from Mrs. Plavan. The only part of it that seems to be disagreeable to them is the fact that the snow storms block the traffic at times when they would otherwise be moving on.

One incident she related was of the trials and perseverance it took for them to go through one mile of drifted snow to the station following a big storm. Every conceivable method was used to tramp it down so it would be passable and this finally had to be given up and the road cleared with snow shovels.

Fred Pope is visiting relatives and friends at Hemet, having gone up last week.

Mr. and Mrs. Harold Bullock took dinner Saturday with Mr. Bullock's parents, Mr. and Mrs. J. Bullock, in Santa Ana.

Mrs. M. A. Nimocks was a Los Angeles visitor Monday of this week.

Claire Wardlow spent the day Sunday with Frank Harper.

Ernest Plavan and sister, Miss Edith, motored to Los Angeles Friday evening and attended the theater.

Harry Harper stopped for dinner with his parents, Mr. and Mrs. J. O. Harper, while on his oil route in this neighborhood Monday.

Mr. and Mrs. Roy Perrine and family moved Friday of last week to the cottage on the Nimocks ranch, where Mr. Perrine is employed.

A. F. Swift has been on the sick list the past week.

Mr. and Mrs. D. W. Irwin and son, Murel, and Mr. and Mrs. Frank Planchon and children motored to Elfinan last Sunday, where they passed the day as guests of Mr. and Mrs. Harvey Walker. The Walkers are liking their new location fine and are doing well with their general merchandise store.

Mr. and Mrs. Arnold Walker and little daughters, Bernice and Elmore, visited Sunday at Dominguez with Mrs. Walker's parents, Mr. and Mrs. C. C. Heacock, and in the afternoon also spent some time at the Harvey Walker home. They also stopped to see how Mrs. Walker's sister, Mrs. Morton, and family, who were under quarantine for diphtheria, were getting along. Emma Morton, who had the disease, was much better and they expected to know by Monday whether the quarantine could be lifted or not. The other members of the family have escaped contracting the disease so far.

Chas. Ward is having a cement drive put in from the boulevard to his garage this week and also sidewalks about the house. The work began Monday.

Franklin E. Combs, a cousin of the Plavans, spent a twenty-four hour furlough at their home during the week-end. Combs is in the heavy artillery and has just been transferred to Fort McArthur from St. Louis, Mo., and

this was his first opportunity to visit his relatives. Ernest, Edith and Wilma Plavan and Miss Grace Malan motored to San Pedro after his Saturday evening and took him back Sunday evening after a most enjoyable visit together. It has been twelve years since some of the cousins here had seen him last, some had never met him and it has been two years since Miss Malan saw him while in Missouri.

Six carloads of celery will be shipped from here this week. Two cars were loaded at the East Talbert station Tuesday by K. Ishii for shipment to Los Angeles buyers. Ishii farms the Gardener ranch.

A. Gurard, who has been visiting his sister, Mrs. Emil Lecrivain, the past six weeks, left Wednesday of this week for his home in Idaho.

MISSION MILLS WORKING FULL TIME ARMY ORDERS

Two Shifts Operating In Man-
ufacture of Blankets
and Overcoating

With the Mission Woolen Mills plant on East Washington avenue operating exclusively on army goods, the factory is under the observation of a federal inspector day and night, and no one outside of the regular employees is permitted to enter. The management even cannot issue a permit for a friend to pass through the establishment.

The success of this enterprise has been beyond the anticipation of those who started it, and today there are about eighty-seven employees on the payroll, with a weekly payroll of from \$1,200 to \$1,500. Of the force employ-

ed about twelve are women. The factory is run day and night, the force working in two shifts of ten hours each.

Army blankets and overcoating are the products of the mills. The firm has orders on hand that will keep the plant running on full time for at least two years. Shipments of finished products are being made twice a week, the average being 2,000 blankets and 1,200 to 1,500 yards of overcoating.

The company has materials on hand for a year's run. P. A. Robinson is building a warehouse on Starford street, east of the S. P. tracks, for use in storing materials.

WOMAN CHARGED WITH FORGING W. F. ORDER

Formal charges were filed in Los Angeles yesterday against Mrs. L. E. Shepard by W. S. Tyler, as the result of the alleged forgery of the name of J. M. Robertson to Wells Fargo money orders. Mrs. Shepard is known as the woman with a unique ring. A ring said to be similar was on the finger of the woman figuring in the forgery.

The money orders were obtained from the Huntington Beach office of the company, and detectives claim they were traced to Mrs. Shepard because of the unique ring she wore. This was a platinum ring set with emeralds. She is said to have left San Francisco for the east.

HARBOR WORK IS RECOMMENDED BY HARBORS COMMITTEE

Action Indicates Government
Approval of Activity In
Improvement Operations

With the House Committee on Rivers and Harbors adopting a resolution under which the Government may take possession of land and go ahead with silt diversion projects for the harbors at San Pedro and Long Beach, Newport harbor supporters believe that favorable action on the project there may be had from the Government. It is taken as an indication that the committee is interested in the advancement of all harbor projects and that recent suggestions of the National Council of Defense that unnecessary building operations be suspended for the period of the war did not include harbor improvements.

It is known that the Newport harbor project is in a stronger position with national legislators than it has ever been before, and that Government recognition can be obtained more readily now than at a later period, particularly if the county should vote bonds for harbor improvements.

President Gordon of the Harbor Commission of Los Angeles construes the action of the Rivers and Harbors committee in ruling to go ahead with work on the silt-diversion project as practically in line with the suggestion made by the commission to Congressman Osborne a few weeks ago. He believes that this will open the way for almost immediate beginning of work on the plan to relieve both the Los Angeles and Long Beach harbors of the danger of being choked with silt every time a flood occurs.

The harbor commission addressed a communication to Congressman Osborne, calling attention to the fact that Los Angeles county has voted \$4,500,000 bonds for flood control purposes and has pledged itself to the maintenance of the silt-diversion project, that the state has appropriated \$1,000,000 for this purpose, of which \$250,000 is now available.

In view of this, Congressman Osborne was asked to take up with the committee on Rivers and Harbors the matter of making the Government appropriation of \$500,000 immediately available for the construction of the channel.

"The advice from Washington indicate that the Government is willing to grant the request of the harbor commission as soon as the condemnation suits are filed," said President Gordon of the harbor commission. "It was not our idea that we should wait even for that, but I do not believe that this will cause any great amount of delay."

"The matter of beginning condemnation proceedings rests entirely with County Counsel Hill, and a good deal depends upon the progress he already has made in that direction. On that matter the harbor commission is not informed. If the beginning of work by the Government depends merely upon the filing of these suits, and the county counsel has all the preliminary

Planting Time Has Come YOU'LL NEED GOOD TOOLS

Plant something to eat and you will be helping your government immeasurably. The cry of our allies for food can easily be answered if every family will do its share. Grow your own vegetables, and grow vegetables for those who have no back yard or plot of ground.

Tools That Make It Easy

We have a complete line of steel garden tools that will make it easy for you to dig up the ground and keep it under cultivation. It is time to make the dirt fly. You'll want at least two crops this season—to help your government. Make the dirt fly now.

GARDEN GROVE JR. RED CROSS ORGANIZED AT NEWHOPE

Interest In Hospital Class at
Garden Grove on the In-
crease; Active Work

GARDEN GROVE, Feb. 1.—Mrs. C. C. Violett went to Newhope Tuesday and formed a Junior Red Cross and may have an auxiliary there. Prospects are bright for it at present. Mrs. Violett is thoroughly alive to the work and misses no opportunity to form new ties for the work.

The work of the red cross is progressing nicely with Miss Ethel Archer, chairman of the Junior Red Cross so much enthusiasm has been aroused that parents dare not take off their sweaters until the Juniors have retired, fearing they will be tailed for red cross. One little miss is reported to have begged her father to accidentally tear his sweater on a nail that she may have it for class work.

The surgical dressing class with Miss Julia Magill as chairman, held the first meeting Wednesday afternoon in the school annex with fourteen present. She is sure with the enthusiasm which has characterized the class in forming that much can be accomplished in the hospital work, which is so much needed.

Also had woman's trouble, and I was weak and nervous. I decided to try Dr. Pierce's Golden Medical Discovery and his 'Favorite Prescription.' I took six bottles of each and was a well woman. My husband had trouble with his lungs. He was very weak. I gave him 'Discovery' and it cured him. I cannot speak too highly of Dr. Pierce's Remedies. Mrs. FRID PATTERSON, 620 Kirby Street.

gave some items of interest of her itinerary which led her through the frontiers of Montana, Wyoming and the Dakotas; also stating that the ministers in those sections were enabled to remain there owing only to the aid received through the Women's Home Missions.
